HME Ahrens-Fox

HME's focus is delivering the Firefighter's must haves – HME fire trucks perform, are durable and safe. They build the entire apparatus – chassis, sub-systems, pump module and body. They're also family-owned and prioritize customer support & their employees.

HME Ahren's-Fox covers 75% of customer needs with three main categories!

DFC Sales Rep:

Jayden Koch

DFC Chief Relations Officer:

Jeff Bryant

DFC Chief Apparatus

Officer: Dale Trettel

SAM BOOST System

- **SIMPLER:** Manage waterflow from an intuitive smart governor and manage waterflow in hand with the SAM Smart Nozzle.
- **FASTER:** Double the productivity of the first crew, enabling them to more quickly get water on the fire and establish a critical secondary water source.
- **SAFER:** The fire ground becomes safer when the crew can focus on the scene rather than the panel and pressure maintenance.
