Come to a Demo with the creator of the FAST Board, Eric Allen!

The FAST Rescue Board is the ultimate rescue platform designed for versatility and ease of use. Configured with industry-standard webbing and hardware, the innovative rapid packaging features can have your patient packaged and moving in seconds.

And when seconds count, the need to pinpoint your patients & your equipment is obvious. With the addition of our new lighted system, the FAST Board becomes a beacon for rescuers. This fully integrated system features internally mounted white LED lighting and a rechargeable battery pack, which provides about 1.5 hours of illumination.
